

This Holiday, Save Money and Help Stop Ocean Plastic

Each year an estimated 12.7 million tonnes of plastic end up in our oceans - everything from plastic bottles and carrier bags to micro-beads and toothbrushes. Ocean plastic waste is an indiscriminate killer - decimating marine life and sea birds.

One of the ways you can help is by not buying bottled water - and instead use the drinking water here in our taps. It's free, it doesn't harm the environment and it tastes just as good as expensive bottled water. Please help us reduce ocean plastic during your stay. Say no to bottled water. Thanks!
